Vim Syntax File for MCNP Input Files

Joel A. Kulesza

Monte Carlo Codes Group (XCP-3)

Los Alamos National Laboratory

This report provides a Vim syntax file for MCNP[®] input files. This file has been tested with Vim 8.2.1719 on macOS 10.15.7 and incorporates many of the input cards and keywords described in [1, Chapter 3].

For convenience, the MCNP syntax file is listed in Appendix A and also provided as an electronic attachment to this PDF. Brief instructions for how to retrieve and use it are also included in Appendix A.

An example MCNP input file using the attached Vim syntax file with a variety of color schemes is shown in Fig. 1.

A reasonable effort has been made to properly parse and highlight MCNP input files in a helpful manner. However, as deficiencies in the attached syntax file are identified they will be listed below until resolved. Known deficiencies include:

1. If the title card contains an MCNP card name or keyword, then title-card highlighting will be partially compromised.

Figure 1: Example MCNP Input File with Syntax Highlighting

A Vim Syntax File for MCNP Input Files

Listing 1 provides a Vim syntax file for MCNP input files. This file can be used by naming it `mcnp.vim` and placing it in the `~/ .vim/syntax` directory (on Linux and macOS) and enabled within Vim using the command `:set ft=mcnp`.

For convenience, the MCNP syntax file in Listing 1 is also provided as an electronic attachment to this PDF, which can be accessed using Adobe Acrobat through the menu path shown in Fig. 2.

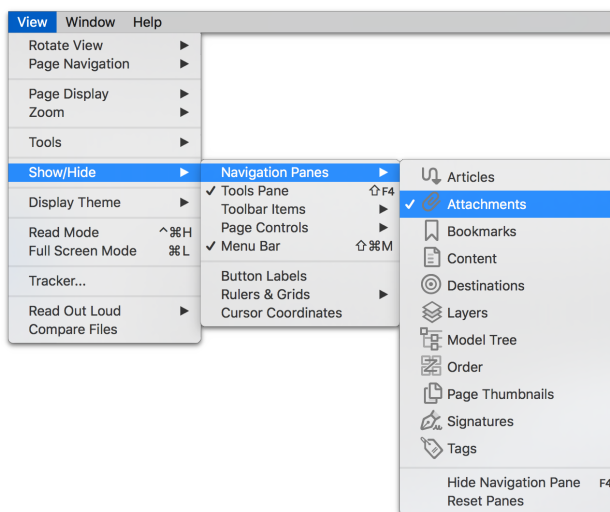

Figure 2: Adobe Acrobat Menu Path to Access PDF Attachments
